WALL STREET, THERSDAY, MARCH 23-6 P. M.

An Egyptian darkness hangs like a pail over the stockbroking mind, and speculation as to whether events are to shape upward or downward is as uncertain as the life "for better or worse" which a plighted couple contract for in the marriage service. The cheerfulness which was observable last night vanished this morning. We suggested yesterday that there might be a slip up in the Erie third rail matter, and, from the price to-day and the murmurs in the market, it seems probable. The closing quotation of 21 %, made at the end of business hours yesterday, quietly dropped off to 20 & before midday, and from that time to gong sound there was no material change. In fact, there can be no dependence placed upon the action of Eric at present, for its ways are dark and the intentions of its manipulators, who will thimblerig the concern for their own benefit so long as an interest can be kept alive, are darker yet.

-Lake Shore, which opened as it had closed, also took a dip downward in sympathetic fright with Eric, but came to a standstill after a decline of 1/2 per cent.

There was no further pressure to sell and there was no disposition to buy, and the machinery simply stopped as does a locomotive when out of coal and

In fact, this same remark will hold good with the entire, list which seemed to make up its mind that the day was a propitious one for a siesta, and the hours were yawned away as sleepily as though the market had breakfasted and lunched on popples.

Even the rumor committee was as dumb as an oyster, or as incomprehensible as the kindred personification

Operators stand eyeing each other from hostile camps, but neither bull nor bear is certain from which side the assault is to be made.

The departure for Havana of Mr. Orton, the President of the Western Union Company, is received by some as a satisfactory index that a truce for the time being has been declared between the contending tele graph factions, while others profess to know that uld has covered his shorts and that the next move

will be for an advance. Quien sube?

The St. Paul books closed to-day preparatory to the ong promised dividend on the preferred stock. This from San Francisco:disbursement will be to the amount of a 14 per cent dividend on the par value and will be in the shape of the company's first consolidated bonds, for which 88 is bid. Taking the bonds at this figure and the stock at 81, the price of the latter, dividend off, would be about 59%. The actual price, however, was somewhat better than this at the close, the quotation being 69% a 70.

THE AMERICAN BOOK FAIR.

After a continuation of four days of varied success the book fair of the American Book Trade Association, held at Leavitt's salesrooms, came to a close last evening. Buyers from all parts of the country were present, and the prices realized for the goods sold were in the main very good. Owing to the general prostration of trade the purchases were not as heavy as they used to be under the old régime of the trade sales, when goods were slaughtered; yet, on the average, they were much heavier than anticipated. Up to the last moment at which the goods were displayed buyers were present.

Among the exhibitors at the fair who have not been mentioned herotofore were the following:—

Messrs. Hurd & Houghton, of New York, proprietors of the Riverside Press, exhibited a "Centennial Guide Book of Philadelphia," their special editions of Dickens, Cooper, Lord Bacon, Hans Christian Andersen, Carlyle, Macaulay's "flistory of England," Alice and Pheebe Carey's works, complete; Knight's "American Mechanics' Dictionary," Rand's "Flow-are all leaves and trends of the family are invited to attend.
